

2025 / 2026  
INTERNATIONAL EDITION

Bemis operates a modern production facility in the Bursa Organized Industrial Zone, with a closed area of 16,000 square meters. With 100% domestic production, the company manufactures 7,000 types of industrial electrical materials.

Holding ISO 9001-2015 Quality Management System certification along with CE, TSE, GOST-R, UKRSEPRO, and TÜV quality certificates, Bemis maintains its leadership in the sector with its skilled and experienced team.

As part of its structured efforts toward becoming a global brand, Bemis continues to advance confidently towards its goals.

With its registered slogan, "Quality is a reflection of respect!", Bemis remains committed to producing high-quality products and providing reliable after-sales services.

Through its export activities, Bemis is not only a recognized brand in the domestic market but also steadily making a name for itself in the global market.

As Turkey's market leader in its field, Bemis manufactures plastic, metal, and rubber plugs and sockets in compliance with different standards and power requirements.

In addition to industrial plugs and sockets, the company provides technical solutions across all industrial sectors with a wide range of products, including plastic distribution panels (combination boxes), plastic and metal junction boxes, plastic enclosures, plastic and metal push-button boxes, plastic switch boxes, plastic and metal cable reels, portable work lamps, safety transformer lighting fixtures, automatic cable winding energy transfer systems, power boxes, and panels.

Beyond the domestic market, Bemis also serves the European market through its branch in Poland and exports to countries including Russia, Egypt, Algeria, Iran, Azerbaijan, Portugal, Ukraine, Bulgaria, Romania, Serbia, France, Germany, Poland, Nigeria, Belarus, Kazakhstan, Iraq, Turkmenistan, Uzbekistan, Kyrgyzstan, Tajikistan, Sweden, Mongolia, South Africa, Kosovo, Tunisia, Jordan, Morocco, Chile, Switzerland, Kuwait, Lebanon, Lithuania, Latvia, Estonia, Norway, India, Spain, Georgia, North Macedonia, Bosnia and Herzegovina, Hungary, Saudi Arabia, Pakistan, Libya, and Qatar.

Our core values are a principled approach, systematic marketing and sales strategies, and dedicated after-sales service. By continuously monitoring customer satisfaction through annual surveys, we identify areas for improvement and take necessary steps to enhance our products and services accordingly.

Bemis continuously improves its products based on feedback received through its network of 110 select dealers. Prioritizing customer satisfaction, the company places great emphasis on R&D activities, designing products that are both practical and highly functional.

#### Our Mission

To continuously develop an aesthetic and safe product range that meets the needs of our stakeholders.

#### Our Vision

To become a globally recognized brand that leads the industry through innovation and quality.

**V20 COMBINATION Series**

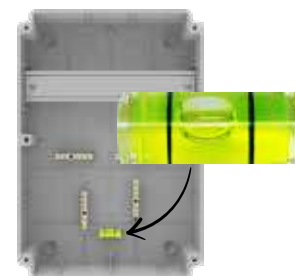

The V20 Series Combination Boxes, available in ABS and halogen-free options, offer IP44 and IP67 protection ratings with a capacity of up to 20 circuit breakers. Designed for a wide range of applications, from industrial facilities and construction sites to power transmission lines, shipyards, and ports, these boxes ensure reliable energy distribution in various environments. With their aesthetic design, high protection standards, and easy installation features, they provide a safe and efficient power distribution solution across all field applications.

## Electric Vehicle V2L Adapters

### What is a V2L Adapter Used For?

A V2L (Vehicle-to-Load) adapter enables energy output from an electric vehicle's battery, allowing external devices to be powered. It is particularly useful in emergencies or natural disasters. Additionally, it provides the capability for vehicle-to-vehicle charging, making it a versatile solution for mobile power needs.

## Electric Vehicle C2L Adapters

### What is a C2L Adapter Used For?

A C2L (Charger-to-Load) adapter converts MOD 2 and MOD 3 AC charging stations into a MOD 1 (standard plug-socket) charging connection. This allows electric vehicles such as Citroën Ami, Amperio, Fiat Topolino, as well as electric bicycles, electric scooters, battery-powered cars, and other electric devices, to be charged using MOD 2 and MOD 3 AC charging stations, making charging more versatile and accessible.

### Very Practical, Screwless ASSEMBLY

In today's conditions, the shortage of technical staff, high man hour costs we manufacturers to make more practical, more robust designs. not compelled. In this context, we have done As a result of R&D studies, very serious we made progress. Although it is a small product 4 point assembly and after assembly After this product, which has difficulty in connecting the cable, we've solved both assembly challenges. Our new product screwless mounting and screwless It is very practical and convenient by providing cable connection. becomes more robust. Attention all users is presented.

*Our cable mobile extension products are suitable for use in camping, boats and caravans.*

*Our range designed for camping, caravan and general mobile energy transfer. 100% test by applying lugs on TSE certified cable connections with the assurance of Bemis controlled production*

*Purpose: The need for such products has increased due to the increase in technical man hour wages. It has been added to our list to meet this need.*

**Safety Socket with Misuse Prevention and Device Protection**

**International Standards:** IEC 309-1, IEC 309-2

**European Standards:** EN 60 309-1, EN 60 309-2

**Flame & Fire Resistance:** Withstands temperatures exceeding 850°C in the glowing wire test

**Mechanical Interlock Switch:** Activates only when a plug is inserted

**Safety Lock Mechanism:** The plug can only be removed when the switch is in the "Off" position

**Switch Compatibility:** Compliant with IEC 60947, suitable for AC 21, AC 22, and AC 23 applications

**Protection Ratings:** IP67 (Ingress Protection) & IK8 (Mechanical Impact Protection)

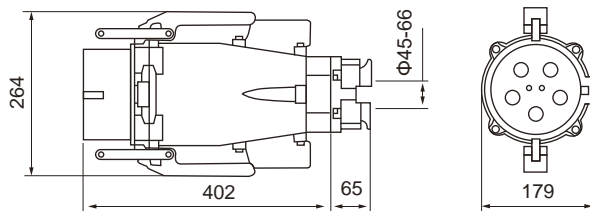

## General Areas of Use of High Current Products

### Primary Application Areas

Ports & Container Storage  
Ships & Shipyards  
Mobile & Heavy Loads  
Construction Sites  
Tunnels & Mining Areas  
Quarries & Open-Pit Mines  
Railway Systems  
Industrial Facilities  
Events & Large-Scale Organizations  
Industrial Furnace Facilities  
Defense Industry

## High Amperage

200A. - 250A - 350A. - 400A.

### Key Characteristics

**High Current Capacity:** Available in 200A, 250A, 350A, and 400A for diverse applications.

**High Voltage Endurance:** Compatible with 380V-415V AC, 50/60 Hz systems.

**Multiple Connection Options:** Configurations of 4 contacts (3P+E) and 5 contacts (3P+N+E).

**Pilot Contact Support:** Includes 2 pilot contacts for enhanced safety and control.

**IP67 Protection Rating:** Ensures complete sealing against harsh environments.

**Silver-Plated Contacts:** Provides better conductivity and extended durability.

**Easy Installation & Removal:** Auxiliary handles enable quick and effortless use.

**Replaceable Contact Parts:** 250A and 400A models allow easy front-side contact replacement.

**Advanced Safety Features:** Includes circuit breaker, electrical interlock, mechanical interlock, and earth leakage protection.

**Full Compliance with Standards:** Manufactured according to IEC EN 60309-1 / VDE 0623 and IEC 60309-2 coding systems.

Body	Nominal Current (A)	Rated Current (A)	Operating Temperature	Cable Cross-Section (mm <sup>2</sup> )
Plastic	200	200	- 40 °C / +100 °C	35 - 150
Plastic	250	250	- 40 °C / +100 °C	35 - 150
Aluminum	350	350	- 40 °C / +100 °C	70 - 240
Aluminum	400	400	- 40 °C / +100 °C	70 - 240
